they fell apart. Capstick invokes the feeling of sitting around a campfire listening to stories. He tell a story the way way Monet painted, full of color and brilliance. His stories make you feel the sun beat down on you, hear the tiny rustle of the long grass that means a charge. When you read his book(s) your not going to feel like you reading, you'll feel like your there.1 von 1 Kunden fanden die folgende Rezension hilfreich. Jagd jenseits von Von J. L. Emanuel Aus ein Familie von Jger und chirurgisch ttig in Kenya verschlung ich Hathaway Capstick's "Death in the long grass" in einem Atemzug. Geistreich und wirklichkeitsnah -ich kenne die Verletzungen genau- beschreibt er in jedes Kapitel ein Killer aus Afrika. Zweckmszigst ist der Leopard, fr Menschen der Hippos als Pflanzenfresser und das Krokodil unter den fleischfressenden. Jagd in Afrika fordert so viele richtige Entscheidungen um Gesund zu bleiben, nur einmal "bad luck" um weiter hinkend oder tot zu sein. Das einzige mehr Ausgiebige als das Leben in Afrika ist der Tod, in tausenden Formen: der Biss eines Krokodils oder die Tragdie von einer bilharzia Schnecke. Der besoffene Neger stirbt nicht von Leberzirrhose - eine Hyne macht ihm fertig. Meist gefhrlich aber bleibt der ngstliche, nervse Kunde hinter einem mit gespannte Hahn ! Das Buch ist ein "must" fr Safarignger und ein "eye opener" fr Jger innerhalb dem Europischem Zaun. 0 von 0 Kunden fanden die folgende Rezension hilfreich. His first and, perhaps, his best book. Von Ein Kunde After many years on the African trail, Capstick takes the reader "up close and personal" with Africa's Big Five in the first of his numerous books on the subject. He is a first-rate story teller, as we see from his gripping renditions of the tales told to him of the Great White Hunters from Africa's not-to-distant past. He also throws in a few harrowing tales of his own, just for good measure, throughout. The breadth and scope of his entire volume of work certainly makes him chief "Bwana" of all writers who have broached the topic of African big game hunting. You may also want to check out some other titles in the "Death" series, such as his first compilation of magazine articles, "Death in a Lonely Land". I promise, if you like hunting (or just like reading about it), you'll be glad that you did.

Kurzbeschreibung Few men can say they have known Africa as Peter Hathaway Capstick has know it-- leading safaris through lion country; tracking man-eating leopards along tangled jungle paths; running for cover as fear-maddened elephants stampede in all directions. And of the few who have known this dangerous way of life, fewer still can recount their adventures with the flair of this former professional hunter-turned-writer. Based on Capstick's own experiences and the personal accounts of his colleagues, Death in the Long Grass portrays the great killers of the African bush-- not only the lion, leopard, and elephant, but the primitive rhino and the crocodile waiting for its unsuspecting prey, the titanic hippo and the Cape buffalo charging like an express train out of control. Capstick was a born raconteur whose colorful descriptions and eye for exciting, authentic detail bring us face to face with some of the most ferocious killers in the world-- underrated killers like the surprisingly brave and cunning hyena, silent killers such as the lightning-fast black mamba snake, collective killers like the wild dog. Readers can lean back in a chair, sip a tall, iced drink, and revel in the kinds of hunting stories Hemingway and Ruark used to hear in hotel bars from Nairobi to Johannesburg, as veteran hunters would tell of what they heard beyond the campfire and saw through the sights of an express rifle. As thrilling as any novel, as taut and exciting as any adventure story, Death in the Long Grass takes us deep into the heart of darkness to view the Africa that few people have ever seen..deHook-and-bullet adventures had by tough guys such as Teddy Roosevelt and Papa Hemingway may be out of favor in these times of eco-awareness, but Peter Hathaway Capstick's account of big-game hunting in Africa remains a classic. With humor, grace, and supreme tension, Capstick takes the reader on safari, eloquently stating his case for blood sport while portraying the intensity of the hunt..comHook-and-bullet adventures had by tough guys such as Teddy Roosevelt and Papa Hemingway may be out of favor in these times of eco-awareness, but Peter Hathaway Capstick's account of big-game hunting in Africa remains a classic.
