A MUST READVon NORMAN CLEARYDefending A King His Life and Legacy by Dr. Karen Moriarty is an excellent book and a must read for any and all fans of Michael Jackson. Dr. Moriarty goes inside the defenders of Michael Jackson. Beginning

with his arrival to America in December of 2006. Dr Moriarty was able to interview the bodyguards who were hired to defend Michael Jackson or as they referred to him as Mr. Jackson. They provide detailed information to Dr. Moriarty at detail of the extreme measures they protected Michael Jackson on a daily basis, and as time went on they gained his trust. Additionally, perhaps the greatest defender of Michael Jackson is that of attorney Thomas Mesereau whom Michael trusted in defending literally his life and freedoms. Mr. Mesereau defends Michael in 2005 in the child molestation case. Though a very arduous task, she is able provide insightful information as to what Mr. Mesereau and Susan Yu did to defend the life of Michael Jackson. Even in death, Michael still had to be defended. This time it is by David Walgren the prosecutor who tries Conrad Murray and wins. Being unemployed at the time, I was able to watch it and could not believe what I saw. However reading and reliving it in print, made me mad, angry at how neglectful (putting it mildly) Murray cared for Michael. Finally, she points out that Michaels life and legacy are his children: How he raised them with the care and love any proud father would care for his children and what they meant to him. He would do nothing to lose them. As a result, his children will use his example to carry on with their lives going forward and carry on his legacy that he built and created. Finally, the Legacy is the music he created will be a long and lasting to be shared for all of us to listen and remembered for a very long time. It will be just as fresh in the future as when it was first recorded. Today, his music touches, influences all ages, performers and entertainers alike all over the world. You just dont have to be Black or White to appreciate his music but one must look at The Man in the Mirror to make that change.

When I started to read this book, I was entranced by the almost poetic writing style of Dr. Karen Moriarty. The book is thematically well jointed, it opens a new perception about Michael Jackson and is very well investigated with provable facts. It is written warmhearted and deferentially. An absolutely MUST for all MJ-fans! They will love it! But this work should be read by the non-fans, because it opens an unique possibility to get to know who was the "real Michael Jackson". Finally the prejudices, defamation and lies about this unique awesome person has to stop! Michael Jackson was surely the biggest entertainer and humanist on earth. It is unbelievable, how badly he was treated. He gave everything to the world what a person can give: He created unforgettable compositions and music, he defined the dance style for all next generations, he helped the poor and he loved the children. Karen Moriarty describes all the facts in her book. She takes up exactly this topic. It is a very intelligent, sensitive and literary work. This book should be translated into other languages!

Als ich anfang, dieses Buch zu lesen, war ich berrascht ber den fast schon als poetisch zu betrachtenden Schreibstil von Dr. Karen Moriarty. Das Buch ist thematisch sehr gut gegliedert, es erffnet eine neue Sichtweise ber Michael Jackson und ist sehr gut recherchiert unter Einbeziehung nachweisbarer Quellen. Es ist warmherzig und respektvoll. Ein absolutes MUSS fr jeden MJ-Fan! Sie werden es lieben! Aber dieses Werk sollte vor allem von den Nicht-Fans gelesen werden, weil es die einzigartige Mglichkeit bietet den "echten Michael Jackson" kennenzulernen. Die Vorurteile, Verleumdungen und Lgen ber diesen einzigartigen und beeindruckenden Menschen mssen endgltig aufhren. MJ war sicher der grten Entertainer und einer der grten Humanisten auf Erden. Es ist nicht nachvollziehbar, wie schlecht man ihn behandelte. Er gab der Welt alles, was ein Mensch geben kann: Er schuf unvergessliche Kompositionen und Musik, er definierte den Tanzstil fr die nchsten Generationen, er half den Bedrftigen und er liebte Kinder ber alles. Karen Moriarty beschreibt alle Fakten in ihrem Buch und greift genau diese Problematik auf. Es ist ein sehr intelligentes, sensibles und literarisches Werk. Das Buch sollte unbedingt in andere Sprachen bersetzt werden.
