Von Scott Kelby, Felix Nelson : Photoshop 6 Killer Tips before purchasing it in order to gage whether or not it would be worth my time, and all praised Photoshop 6 Killer Tips:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Geniale TIME WINNER TIPS! Von S. Ferk Bin Graphic Artist und somit einschlgig "vorbelastet", was gute Tips fr Photoshop betrifft! Der Inhalt dieses "Werkzeuges" ist nach "speed" eingeteilt... von "Life in the Fast Lane" bis "Speed Kills". Zu Beginn des Buches werden die grundlegenden Shortcuts und Kniffe an den Tag gebracht - die meisten kennt man ja aus Erfahrung (denkt man) - aber dann geht's erst richtig ab: ein genialer Tip nach dem anderen... Ich hatte mir viel von diesem Buch erwartet und war dann wirklich sehr positiv berrascht! Mit diesem Werk hat man ohne Zweifel die Konkurrenz in der Hand... fr Anfnger bis Profis und auch fr Photoshop 5.5 Anwender sehr zu empfehlen! Mein neuer Partner bei der Arbeit!! =>

Kurzbeschreibung When it comes to Photoshop(r), time is money, and this hot new book (from Scott Kelby and Felix Nelson, the team behind Photoshop User magazine) is all about speed, speed, and more speed! This book is all tips--there are no special effects: no flaming type, no glows, etc.--it's just packed cover-to-cover with nothing little-known tricks and tips that the pros use every day to get twice the work done in half the time. The idea behind this book comes from something that every great Photoshop book already has--those valuable little sidebar tips. We found that we often read those tips first, before we'd even actually read the chapter. The only problem is, there's just not enough of 'em. So we thought, "Wouldn't it be cool if there was a Photoshop book, and the whole book, cover-to-cover, was nothing but those great sidebar tips." That's what we've created in this book, which is all about the fun (and bragging rights) that come with knowing "all the inside tips." The reason why the book's slogan is "speed kills!," is because this is the book that will make you faster and more productive than ever so you can "smoke the competition."

Synopsis Pure tips on every aspect of using Photoshop in the professional arena. No time wasted on "cool effects" here; you can find those elsewhere. This book is packed with hundreds of tips-illustrations included-that make it easy for working Photoshoppers to recognize, learn, apply these nuggets of knowledge to any aspect of their own workflow. When it comes to Photoshop, time is money. This book is all about speed; showing the Photoshop professional how to get more work done faster, while actually increasing quality. The whole concept is to help make the reader faster and more productive than ever in Photoshop. In an ever-tightening and competitive marketplace, this kind of book is sorely needed.
