Good readVon lenkalotteA delightful little book and a nice change of pace from the usual lesfic fare of romance/mystery. It does a fine job of describing every day homophobia we all face at some point.This book is the story of 12 year old piper and her dog Someday. Piper has been living with her grandfather since the death of her parents and brother.It is written in first person, not something I usually like, but Piper's 12 year old voice is nice to follow. There are some

grammatical 'peculiarities', but I had the feeling they were on purpose to reflect Piper's age and background. The grandfather is more interested in drinking and spending time with his buddy than in raising Piper, so she fend for herself a lot, spending time in her fort by the river and skateboarding. Things start to change for her when a lesbian couple moves into their complex and starts looking out for her. Despite all the sadness and dark moments for Piper, this book is full of laughter.

Kurzbeschreibung It seemed as though life couldn't get any worse for feisty, young Piper Leigh Cliff and her three-legged dog, Someday. After losing her parents and brother in a drunk driving accident, she and her dog are forced to live in what she calls the grossest looking apartment complex in Goochland County, Virginia. Soon after, she begins to deal with even more trauma as she's swept up in a maelstrom that includes her grandfather and his cross-eyed lackey friend, Clover, two old rednecks in love with booze, NASCAR, and jaunts to the local bar. Left alone to fend for herself, Piper passes the time by shooting basketball, hanging out at her fort, and smoking stolen cigarettes from her grandfather. Piper's luck begins to change, however, when two women move in just three doors down. The trio soon forge a relationship, despite all the warnings from Piper's grandfather. Then, when someone attempts to have his way with Piper, the wheels of fate go into motion, leading everyone to the county pound, juvenile domestic court, and a revelation that will change the course of Piper's life forever. Through this, the lessons of shame, guilt, and what it means to be loyal resound in the most unexpected ways. When Piper's own Amber Alert goes off, Lord only knows what will happen next. Piper, with her three-legged dog Someday, is the lesbian Scout we've been waiting for. You won't forget this endearing story.
