as high as I can go? Von ronbridget@aol.com This is very sound, practical, "liveable" teaching on the matter of spiritual warfare. Unfortunately, most of us from evangelical backgrounds get very limited teaching on the reality of the battle. Dr. Logan's book is particularly valuable in that it not only acquaints the reader with the concept of spiritual warfare, but gives practical, measurable steps to apply it to their daily walk. The "Higher Ground" segments between chapters are especially helpful in this regard. I'm ordinarily hesitant to recommend books too quickly, knowing that for most people it requires an investment of days or weeks to finish a book. Dr. Logan's book is a notable exception; this is worthwhile reading for any believer who's hungry to see genuine change and growth. This is life-changing material. What gift to the body of Christ! 0 von 0 Kunden fanden die folgende Rezension hilfreich. Facing your failures with honesty Von Ein Kunde Starting with real life failures who have overcome certain weaknesses, Logan gets to the heart of the matter: backing off from Satan because of our inability to face the truth. The ground we surrender to Satan can be reclaimed, and the fortresses he's built there destroyed, by acknowledging our weakness, and drawing on God's strength. Each chapter covers another area to work through, with step by step instructions on how to break unhealthy and unspiritual behavior. Especially helpful are Logan's instructions on restoring broken relationships, submission to lawful authorities, and overcoming habitual sin. The chapter on the armor of God was full of insights, but be warned that the book virtually requires a life-changing experience. 0 von 0 Kunden fanden die folgende Rezension hilfreich. To the point about spiritual warfare and how to attack it. Von Ein Kunde We are studying this book as an elective in our Sunday School Class at Antrim Brethren in Christ Church in PA. It gets directly to the point of spiritual warfare in yourself, your family and the church in general. It covers many different ways that spirits can invade you and your home and how to reclaim the surrendered ground. I would recommend this to any individual or group looking for a good book to study.

Kurzbeschreibung Equip your family for spiritual warfare. Few families are aware of the Devil's attacks. Fewer know how to withstand them. Is yours ready? Jim Logan used to think spiritual warfare was a radical idea. That was before he realized just how real it was, especially in the lives of families. Moved by this discovery, in a ten-year span he read over 400 books on spiritual warfare and counseled hundreds of families under satanic attack, soon emerging as a spiritual warfare expert. Reclaiming Surrendered Ground represents the insights gained in those years of study and ministry, and it contains the principles he turned to repeatedly in counseling families. Logan will help you and your family: Become alert to the enemy and his tactics Discover your areas of vulnerability Live freely in Christ's victory Don't let the enemy gain ground in your family. Read Reclaiming Surrendered Ground and be equipped for battle. www.biblicalrestorationministries.org
