Von Tony T. Kern : Redefining Airmanship (Aviation) before purchasing it in order to gage whether or not it would be worth my time, and all praised Redefining Airmanship (Aviation):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A must read for the complete pilot. Von a0010640@airmail.netA rare resource for insite into avaitions most critical element: The Pilot. No where else in aviation literature has someone captured the standards for professional airmanship. Kern gives the route to complete airmanship, whether you fly a Cub, or an SR-71. A valuable resource and asset for all training department libraries.0 von 0 Kunden fanden die folgende Rezension hilfreich. Must readerVon Michaela sA Must read for all Pilots - Military, commercial and private. Kern gives Great examples, personal insights and pragmatic tips.

KurzbeschreibungRedefining Airmanship offers the first concrete model of the abstract ideal of "airmanship," and gives the reader step-by-step guidance for self-appraisal and improvement in the areas of flight proficiency, teamwork, and good judgment in crisis situations. The author, Major Tony Kern, draws on his extensive flight and crew-training experience in the U.S. Air Force, but his model is invaluable for all pilots, whether military, recreational, or commercial. "Kern's work is a breakthrough, and a benchmark."--John J. Nance, author of Blind TrustPressestimmenKern hits the mark with the focus on individual responsibility and airmanship. . ." There is no improvement like self-improvement, and Airmanship" hits the critical points on complacency, discipline, and pilot judgment"(Airmanship) is a unique work, which, perhaps for the first time, begins to define the professional ethos of being an airman."--Nance, John J. "Author of Blind Trust and ABC News Aviation Consultant
