**Von Joseph McMoneagle : Remote Viewing Secrets (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Remote Viewing Secrets (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen4 von 4 Kunden fanden die folgende Rezension hilfreich. destined to be THE CLASSIC in the psychic fieldVon Don WilliamsAnyone with an interest in the paranormal or psychic functioning of any kind MUST have this book. Like "Mind Trek", with "Remote Viewing Secrets" Joe has broken new ground in the field of psychic literature. But "Remote Viewing Secrets" far surpasses anything even Joe has published to-date. The book is a true masterpiece. Joe addresses every aspect of psychic functioning with a depth and rich clarity that has never been achieved. For a remote viewer, it's all here; what is real and what is not, proper targeting, protocols, training, applications, methods, evaluating yourself,etc. His descriptions of the inner development of a novice remote viewer is uncanny.This also the book for anyone with a healthy skepticism. The honest, open-minded

person will find what s/he is looking for in these pages. I must say this: I've experienced spontaneous psychic events since childhood and I've read every paranormal-related book I could get my hands on. The writing of McMoneagle eclipses everything else. Follow his advice to the letter and, whatever natural ability you have; it will shine through. If you are one of those people who are gifted; in this book you will find the reassurance and support you need. Joe's been there, and he lets the reader know it. Joe McMoneagle is paving the way for the rest of us. Honest, readable, yet straight-to-the-point, this book shows you the trail, warns you of the pitfalls, explains every conceivable twist and turn, and then encourages you to explore at your own pace. This book is destined to be THE classic in psychic literature. At least until Joe writes another one...3 von 3 Kunden fanden die folgende Rezension hilfreich. Diese AmerikanerVon Dr. Gaius BaltarKlar; McM ist einer der absoluten Talente des frhen C-RVs. Er ist ein Naturtalent. Das die Amerikaner einen Stich in Richtung "Stages" und Level haben, ist auch nicht neu. Hier sind es die verschiedenen Grtel, die man sich quasi erarbeitet. Obwohl das Buch selber eigentlich gar keine Anleitung fr die Anwendung von RV bietet (und mit dem Einsatz von Pendel sich doch eher verirrt gibt); bietet es doch einige extrem gute und tiefblickende Anstze fr die Leute, die sich schon mit RV befassen. Obwohl ich McM fr ein echtes Suptertalent halte, sind die Anleitungen im Deutschen von Manfred Jelinski doch deutlich besser und nachhaltiger. Zumal MJ sich von diesen esoterischen Pragmatismen befreit, fr alles mgliche cool-klngende Namen zu erfinden.5 von 6 Kunden fanden die folgende Rezension hilfreich. What's missingVon Ein KundeI ordered this book from .comn, thinking it would tell me, as the jacket suggests, how to do remote viewing. I returned it when I found that, while it goes into excruciating detail on all of the external protocols-- like what the other members of the team do- it has very little on the subjective processes, and in fact gives no subjective protocols whatsoever. If you want to know more about those things, you're better off doing a search on the web using the keywords remote viewing matrix. I thought I'd better keep myself anonymous, lest the author seeks revenge for this review by remote viewing ME! :)

KurzbeschreibungRemote viewing is not simply using psychic ability to obtain information. It is using scientific protocol to develop and extend that ability, so that ordinary people can learn to do what "psychics" do.This book teaches you how to teach yourself.Joseph McMoneagle learned remote viewing in the U.S. Army--he was Remote Viewer #001 in the Army's Stargate program--and was awarded the Legion of Merit for his contribution to various intelligence operations. In Remote Viewing Secrets, the author of Mind Trek and The Ultimate Time Machine uses examples, exercises, and anecdotes to share what he learned and how he learned it, and gives you everything you need to begin developing your own abilities.Remote Viewing Secrets is easily the most complete, authentic, and informative guide to remote viewing published to date..deJoseph McMoneagle was one of the original remote viewers recruited into the military's Project Stargate, a once secret army project designed to use trained remote viewers for spying during the cold war. For the uninitiated, remote viewing (often referred to as RV) is a skill that allows a person (viewer) to envision events, people, or objects that are not within eyesight--in another room or in another country (and sometimes in the future). McMoneagle believes that anybody can be trained in remote viewing (no psychic gifts required). However, it requires a huge commitment and a highly disciplined mind. Using the analogy of martial arts, McMoneagle sees RV training in levels, starting with white belt where viewers can expect to see a gestalt (an overall impression) of a target. By the time readers reach the red-black belt-great master, McMoneagle claims they will have gained "a near-perfect union of one's paranormal talent blended within extant reality. People who reach this level no longer have to think about it, they simply do." Although readers won't become a great master by reading this one book, McMoneagle does provide a comprehensive training program as well as important chapters on the ethics, protocol, and applications of remote viewing. --Tara WestKurzbeschreibungRemote viewing is not simply using psychic ability to obtain information.
