have been told better. TRUE STORY though.

Kurzbeschreibung" ... the true story of Poon Lim, a second steward and the only survivor of the British ship Benlomond, which was torpedoed on November 23, 1942 off the coast of South America. McCunn beautifully recounts Lim's 133 days of survival on a wooden raft--the longest recorded survival story in modern history.... This book should become a classic in sea survival. Highly recommended."
