Von Eric Dahlin : Space Painting: Paint your Universe (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Space Painting: Paint your Universe (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Ganz In OrdnungVon Luchs501Als Anfnger schn mal so einen Einstieg zu bekommen. Doch ist in diesem Skript wirklich nur Text enthalten, was die anschlieende Durchfhrung des Bildes recht schwer macht, weil eben keine bildliche Vorstellung im Kopf existiert und man nur mit dem Beschriebenen arbeiten kann.

KurzbeschreibungHave you ever been to a big city? Mexico? or other places and seen street artists using spray paint to create amazing space paintings? It looks very difficult and hard. However, it is not very hard to do! In fact with a few

cans of paint and a little practice you can be painting space paintings as well! This book will teach you the basics of space painting, how to do basic elements, as well as some more advanced techniques. I wish you the best on your space painting journey! This book teaches you to make spray paint art. This art was invented in Mexico and is becoming more and more popular in the world. It is considered street art, but it is not graffiti. Many advanced spray paint artists create spacescapes as well as amazing landscapes using only spray paint. You will understand the basics and be able to make your own space paintings after you have completed reading this art book on kindle.
