Von Dennis Hopeless : Spider-Woman Vol. 2: New Duds (Spider-Woman (2014-2015)) before purchasing it in order to gage whether or not it would be worth my time, and all praised Spider-Woman Vol. 2: New Duds (Spider-Woman (2014-2015)):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Clever down-to-earth metatext super-heroingVon BorisThere was a lot of fuss about female led books at Marvel lately: Captain Marvel, Ms. Marvel, Spider-Gwen, She-Hulk. In my humble opinion this Spider-Woman beats them all. And

Dennis Hopeless did not have an easy job: starting a new book during the big Spider-Verse crossover with Greg Land at pencils and a Milo Manara cover that made sure there was more talk about Spider-Womans butt than any word spoken in the book. Hopeless overcame all of this. I have never been into Spider-Woman and I cannot really say why I picked up this book. But I have not regretted it for a second. This is one of the best things I have found at Marvel since a long time. What I like so much is that this is really a reality grounded book. If you are sick of the Multiverse going down every Tuesday this should be your cup of tea. Its down to earth, its about everyday problems of normal people. And it has such cool metatext that shows that author Hopeless has read his load of Marvel continuity. [Small spoiler:] Hulk cows! Ben Urich!! An odd silver age villain that will not be spoiled here. If you like Spencers Ant-Man, please, read this too. Penciler Javier Rodriguez must not be confused with Spider-Gwen penciler Robbi Rodriguez, but he does a similar outstanding job. His pencils are unobtrusive, but always supporting the story. And his Jessica is in a different way attracting than Lands rendition, but attractive anyway. Dennis Hopeless has won me. I am awaiting the All-New Spider-Woman as well as his All-New X-Men. Here collecting Spider-Woman vol. 5 #5-10. Recommended!!

KurzbeschreibungCollects Spider-Woman (2014) #5-10. One of Marvel's best-dressed super heroes gets a whole new look and a status-quo switch to match! Taking time off from the Avengers, Jessica Drew is back in the investigating business, with reporter Ben Urich at her side. And their first case is a doozy. Someone is kidnapping the loved ones of super villains but no one cares. No one except Spider-Woman and Ben. With more at stake than she realizes, Jess is heading for a showdown with a new nemesis: Lady Caterpillar! But along the way, which prickly Silver Age bad guy will join Team Spider-Woman? The gang's all here, and there's work to be done Urich's notebook is full of unsolved mysteries, all across America. There's only one solution: road trip!
