Startling.Von AmyThis story is startling. It does what Allen Say sets out todo, it alters you. No one writes about this stuff - age-ism -especially not in a children's book and through the powerful medium of a hallucinatory/fantastic story sequence. It's definitely different and I almost want to say subversive. I wonder what children would think of it.

KurzbeschreibungOne morning Sam wakes up and looks at his reflection in the mirror. Overnight he has changed, and he sees a stranger's face staring back at him - an old face. Sam has suddenly aged. As a result, his classmates won't play with him, and at home his family treats him like a different person. On the inside, though, he is the same Sam - why can't anyone see that?
