AugenffnerVon KundeIch habe das Buch verschenkt und damit einen Volltreffer gelandet. Sehr gut hergeleitete Zusammenhänge. Regt an, nochmal ganz anders auf die Gesellschaft und den Staat zu schauen.

KurzbeschreibungA twelve-term US Congressman and three-time presidential candidate, Ron Paul reveals an intensely personal side as he reflects on growing up during World War II. The book also provides a powerful critique of the corruption and corrosion produced by a 20th century full of war and killing. Ever the optimist, however, Paul leaves behind the ashes of a 20th century of war to finish with a stirring, liberating view of the future we may choose if we turn from war and violence.

ber den Autor und weitere MitwirkendeRon Paul was born on August 20, 1935 in Pennsylvania. After attending Gettysburg College and Duke University School of Medicine, Dr. Paul served 5 years in the United States Air Force and Air National Guard as a flight surgeon. Upon retiring from the military, Dr. Paul practiced medicine as an OB-GYN in Brazoria County, Texas, where he delivered over 4,000 babies. Dr. Paul was first elected to Congress in 1976 and served 12 terms. A three-time presidential candidate, Dr. Paul ran on a platform of non-interventionism which attracted wide support among young voters as well as members of the military. In both 2008 and 2012, Dr. Paul received more political contributions from active and retired members of the military than all of the other candidates of either Party combined. Dr. Paul has been married to his wife, Carol Paul, for 58 years and together they have 5 children and 19 grandchildren.
