KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Liefert nur einen EinblickVon CustomerUnvollständige bersicht. Lediglich eine Einfhrung fr Leute die noch nie etwas von TEMS oder T3C gehrt haben. Keine wissenschaftlichen Quellen. Wer sich ernsthaft mit dem Thema beschftigt sollte das PHTLS Buch lesen.0 von 0 Kunden fanden die folgende Rezension hilfreich. Veraltete bersicht...Von BakerDas Buch beansprucht fr sich, nur eine Einfhrung fr medizinisch vorgebildete Leser zu sein, die sich ber das Feld von TEMS (nicht TCCC) informieren wollen. Soweit, so gut. Zum Erscheinungszeitpunkt sicherlich nicht schlecht, aber heute leider veraltet. Dazu kommen die schwarz-weiss Fotos und mit gerade mal knapp 100 Seiten wird jedes Kapitel auch immer nur kurz "angerissen". Wer sich ber die Grundlagen der "taktischen Notfallmedizin" informieren mchte, der findet unter diesem Suchbegriff auch mittlerweile deutschsprachige Literatur.
