Kurzbeschreibung Best-selling author Gabe Suarez provides a graduate-level course in shooting with lightning speed and dead on target during the intensity of an actual gun battle. In *Tactical Pistol Marksmanship*, Suarez revisits some of the topics in the classic book *The Tactical Pistol* and presents even more gun-handling techniques, different twists on basic skills and unique tricks to help fine-tune how you aim and fire a gun under stress. Just some of the topics he covers are the primary requirements for the ideal service pistol according to combat vets; the rule of thumb for choosing a serious combat caliber; the 4 most important fundamentals of combat marksmanship; secrets to shooting in extremely low light situations when even tritium sights are of no use; the solutions to emergency failure-to-stop situations; and practical drills you can perform safely at home.
