Von Patty Summers : Talking With the Animals before purchasing it in order to gage whether or not it would be worth my time, and all praised Talking With the Animals:

I really admire Pattys Summers' gift of communicating so clearly a subject that is dear to the hearts of animals lovers, but which is usually not part of our daily reality. I also want to say that Patty did a session for me with my most beloved horse who passed away in May, 2000. The reading from her was unbelievably accurate and brought great peace to me during a time of the most intense grief I have ever experienced. So I know from first-hand experience that she is truly gifted and a genuine animal communicator. 0 von 0 Kunden fanden die folgende Rezension hilfreich. This book touched my heart at a very deep level. Von

kkleve@richmond.net Read this book, savor it. Learn with your heart from the stories within. Patty has worked for many years with animals of just about every personality and character. True acceptance of every animal spirit is a strong current flowing throughout this book. For some of the animals are by no means saints, and all stories do not have fairy tale endings. But what they all do is allow us a glimpse-however brief-into the wonderful world of souls who just happen to inhabit bodies different from ours (and maybe not so different at that). We CAN all learn to communicate with our domestic and wild animal companions. I believe Patty shows us the way. And the first step is opening the mind of the heart. The second is the humility to listen (really listen). The third is to express gratitude. Pakko (my cat companion) and Sunnie (my dog guardian angel) agree. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Patty Summers' "Talking with Animals" is a wonderful! Von Ein Kunde Patty Summers' extraordinary "Talking with Animals" is a tender, moving tribute to understanding the other souls who inhabit our planet. Instead of touting her own abilities as "magic", Summers shows how she tuned into telepathic communications with animals and offers readers tips on how to do it. Any animal lover will be thrilled with this unique and outstanding book.

Kurzbeschreibung Is it really possible to talk with animals? Or at least to realize that they are talking to us all the time? Patty Summers listens and understands. An "animal communicator," Summers can converse directly with a variety of animal species, from cats and dogs to rabbits, horses, and iguanas. In this beautiful and moving book, the animals share their wisdom, their perspective on life, and even how they feel about human beings. The animals can teach us many things, and Summers uses her abilities to help humans listen and to aid humans and animals in understanding one another better. She also describes the ways that animals comprehend the world, and explains that they always understand the intent of human communications, if not the words. And she teaches that they share our wants and needs, as they desire the same things that humans do: love, compassion, kindness, and respect; and they do not want to be thought of as pets or as beings to be exploited. Summers shares numerous encounters with animals, and each story has a valuable lesson - each is a gift of spirit from the animals. We have so much to learn from our animal companions, domestic and otherwise. Talking with the Animals provides a rare glimpse inside the minds of the creatures with whom we share our planet. de Patty Summers has a remarkable gift--she talks with animals. She doesn't just talk to animals, she converses with them. A regular Doctor Dolittle, Summers shares stories of the animals in her life--dogs, cats, and even an iguana named Quasar. Talking with the Animals will bring a smile to your face, and sometimes a tear to your eye, but there is more here than a human interpretation of animal antics. These stories are told as much by the animals themselves and will teach you as much about the humans on this planet as they do about the furry, feathered, and scaly creatures we share our lives with. --Brian Patterson.com Patty Summers has a remarkable gift--she talks with animals.
