Our family makes reference to this book every day...Von CustomerThe Brawners do a wonderful job of helping us understand the different personalities in a family, in a style that is both very insightful and fun. You might call it Myers-Briggs distilled to a family setting, using animal types for personality descriptions that even an elementary school child can understand.How would members of your family each react to falling off the Empire State Building?

Who would say "We're dead!" Who would say "We'll be dead in 30 SECONDS!" Who would say nothing, but reach out for a paw to hold? And, who would say "So far, so good!" (me). We've learned a lot about family relationships in a 1-beaver, 2-otter household. The Brawners draw on experiences as teacher, school principal, christian sports camp director, mother and father to deliver a wonderfully enjoyable, lifelong tool for fostering love and understanding at home. We've also given copies to several friends, and enjoy watching our kids' relationships grow as their 'zoo' personalities evolve. You'll want to share this one.

Kurzbeschreibung... a blueprint for better relationships at home and in the marketplace. Do you ever wonder why people just don't see things the way you do? Is it a constant challenge to keep peace at the office? Have you ever asked, "How can two kids from the same parents be so different?" Taming The Family Zoo cracks the code to unlock the mystery of challenging relationships. Whether you are dealing with your family of customers, office staff, peers, or the one at home, this book brings to light why some people encourage and motivate you and why some just make you grit your teeth. It's filled with valuable tools for conflict resolution, problem solving, and motivation. You'll discover practical ways to work with different personalities and, most importantly, you'll better understand yourself and the way you think. Taming the Family Zoo is a must read for anyone wanting to construct a better blueprint for stronger, healthier relationships at home and in the marketplace.
