Burgess books overall Von Ein Kunde Folks, You have to get ahold of Thornton Burgess Bedtime Story Books. If you're searching for traditional values reading for your youngster, these are the ones. They're written around the turn of the

century, (the one we're finishing) and are just good, clean fun. The reading level of these books is pushing 2nd grade if you're youngster is above average, but 3rd graders get the most from them. I read the full 20 volume set (hardcover) and it accelerated my reading comprehension, and my vocabulary three grades beyond my peers because the stories were interesting and very well written. Try them out and you won't be disappointed. Happy reading. A big Thorton Burgess fan.0 von 0 Kunden fanden die folgende Rezension hilfreich. Books by Thornton W. BurgessVon Jane ElliottI grew up in a small New England town and read almost every book in the children's section of the library, though none of the books I read stand out in my memory like the books by Burgess. I have never, in all my 40 years, met another person who has read these books. I would like to encourage all to read his books. They are delightful stories with something for everyone.
